

## MILLER® BLACK RHINO™ FALL ARRESTOR

### PRODUCT INFORMATION

Miller Black Rhino fall arrestors are an ultra small and lightweight cable lifeline. Designed with stainless steel cable, the Black Rhino fall arrestor was developed to endure the daily rigors of harsh environments such as concrete construction, welding, steel erection, food processing and warehousing applications. The 2.7 metres of working capacity offers greater mobility and arrests a fall within centimeters, minimising the risk to the employee in the event of a fall.

A shorter arrest distance usually positions the user where they can be quickly rescued. This lightweight unit also features an integral load indicator which shows when the unit must be removed from service. It has corrosion resistant stainless steel and aluminium components.

### PRODUCT FEATURES

- ⇒ Quick activating high strength stainless steel braking system.
- ⇒ Integral load indicator shows if a fall has been taken.
- ⇒ Integral internal shock absorber limits fall forces to under 4kN.
- ⇒ Corrosion resistant s/steel & aluminium components.
- ⇒ Variety of anchorage connectors available including a swivel hook, or triple acting karabiner terminations.
- ⇒ No annual recertification required.

### STANDARDS

- ⇒ Fully compliant to AS/NZS 1891.3 as a type 2 fall arrest device.

CFL2.7M-7/AUS

CFL2.7M-8/AUS

### TECHNICAL INFORMATION

Max working load:	140kG
Cover:	Impact resistant thermoplastic over aluminum
Housing:	Aluminium
Hub:	Zinc
Breaking Mechanism:	Stainless Steel
Cable:	Stainless Steel
Hook:	Zinc-plated with 19mm opening.

### APPLICATIONS

- ⇒ Concrete Construction
- ⇒ Welding at height
- ⇒ Steel erection
- ⇒ Food Processing industries
- ⇒ Warehousing applications

### ORDERING & PACKAGING INFORMATION

Part Number	Description	Length	Terminations	Weight	Cat	Min Order	Package Dimensions	Bar Code
