

▶ ▶ ▶ **SKYWALKER™**

PRODUCT INFORMATION

The Miller® SkyWalker Temporary Horizontal Lifeline adds a new dimension to fall protection versatility. The SkyWalker System offers continuous fall protection for the length of the lifeline. It is ideal for applications where an overhead anchorage does not exist.

PRODUCT FEATURES

Unique engineering design for I-beam installation allows worker to immediately attach to the lifeline eliminating fall hazards.

- ⇒ Available in single-span systems (no intermediate anchorages) up to 60 feet
- ⇒ Modular design allows you to customize your own system.
- ⇒ Intermediate anchorages (stanchions) permit worker to pass without disconnecting from the lifeline — 100% tie-off.
- ⇒ Adjustable beam clamps fit a wide range of beam flanges.
- ⇒ Low-profile extension bar reduces trip hazards.
- ⇒ Anchorages offset for easier worker manoeuvrability.
- ⇒ Unique engineering design for I-beam installation allows worker to immediately attach to lifeline eliminating fall hazards.
- ⇒ 48-inch anchorage height reduces extended free fall distance.
- ⇒ Accommodates two workers per span with a maximum of five workers per system.

APPLICATIONS

- ⇒ Construction

I-beam Installation

Concrete Installation

SKYWALKER KITS

A Miller SkyWalker Wire Rope Lifeline may be used in conjunction with approved Miller brand anchorage connectors to provide a temporary horizontal lifeline system that is quick and easy to install. Miller Cross-Arm Straps conveniently wrap around I-beams and other structures to form secure points of attachment

STANDARDS

- ⇒ Meets OSHA and ANSI requirements
